Loan Repayment Options: see <https://studentloans.gov>

Glossary

Cost of Attendance (COA): The total amount that it costs to attend the Institute during the 2024–25 school year. (This amount does not include scholarships, assistantships, or stipend amounts.)

*COA includes tuition and fees; housing and board; books, supplies, transportation, and loan fees. It also includes miscellaneous and personal expenses, such as costs related to a disability and student health insurance (if applicable). For students attending less than halftime, the COA includes tuition and fees; an allowance for books, supplies, and transportation.

Total Scholarships and Stipend: These are fund sources that do not have to be repaid. Scholarships and Stipends are merit based.

Net Costs: An estimate of the actual costs that you will need to pay during the 2024–25 academic year. Net costs are determined by taking the cost of attendance and subtracting any scholarships or stipend funds you are awarded.

Student Assistantship: A student financial support program that provides part-time employment while enrolled full-time in school to help pay your tuition expenses.

Loans: Borrowed money that must be repaid with interest. Loans from the federal government typically have a lower interest rate than loans from private lenders. Federal loans offered to JPII Graduate Students are Direct Unsubsidized Loans and Direct PLUS Loans. You can find more information about federal loans at [StudentAid.gov](https://studentaid.gov).

Repayment Rate: The share of students who have repaid at least \$1 of the principal balance on their federal loans within 3 years of leaving school.
